## 4. Receiving faxes

#### Manual answer

- 1. " The line is ringing" in Info Bubble on taskbar
- 2. Answer now

- Automatic answer
- 1. Automatical answer after <u>x</u> rings"

To receive faxes you have to activate Data FAX service on you SIM card. By activating it, your SIM card will receive another phone number on which faxes can be received.

If the service is not activated, the incoming call is not picked up and the fax receiving process ends with the "The fax can't be received because of an unexpected error,".

### 5. Fax console table - Faxes management

( Start ⇒ All Programs ⇒ Accessories ⇒ Communications ⇒ Fax ⇒ Fax Console )
